-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-25, drawn to comparing selection criteria with color characteristic of computation component database, classified in class 345, subclass 593.
 - II. Claims 26-50, drawn to color corrected display and storage of special effects, classified in class 382, subclass 167.

The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as combination and sub-combination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP section 806.05 (c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because comparing selection criteria with color characteristic of computation component database and the color corrected display with storage of special effects does not

require the particulars of the subcombinations.

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. Examiner was not able to contact the attorney of record, Douglas Kim, Reg. No. 44,828 between 1/14/05-1/21/05.
